Experts will be on hand at each session to discuss each business' plans and provide details of available European Union funding streams appropriate to their particular business models. Details will also be available of the support on offer to help when submitting funding bids.

Businesses that have already benefited from similar funding will also be available to share their experiences of both the funding process and to outline how their companies have grown as a result of such funding and support.

These events are for business owners or managers only that are looking to benefit from European Structural and Investment Funds and not for intermediary agents.
